Engine Gaskets, Individual

When possible, we supply Elring gaskets. Elring has been an original equipment supplier to Volvo and their quality and fit is excellent. We also hve handy injector seal kits, water pump gasket and seal kits, cam and crank seal kits, head gasket sets, pan gasket sets and most individual gaskets as well. [NOTE: 1975 240 series are equipped with B20 engine and will use Valve cover gasket #2B8183 (cork) or #2B8179 (rubber). See the Vintage section of our website to order this part.]

If you are having problems identifying a gasket or need help resolving a difficult leak, give us a call for help. We may be able to heilp you identify and repair some of the more commonly occurring leaks. Often the fix is a simple inspection of the crankcase breather system for a clogged flame trap or tightening a few loose fasteners.

Models	Years	Engines	Description	Part #	Price	Sale	lbs.	
All	1962-68	B18, B20	distributor base gskt	WS418265	$1.80		0.1000	BUY
